St. Paul, March 7 .- The Democratic state committee of Minnesota after a stubborn fight adopted a resolution endorsing Governor John A. Johnson of Minnesota for the Democratic presidential nomination and recommending that he be named by the national convention at Denver next July.

As the meeting of the committee was presided over by Frank A. Day, private secretary to the governor, and who voted for the Johnson resolution on every test and on the final ballot, the action of the committee is held by political leaders as placing the gov

The Johnson resolution was carried by a vote of 68 to 23, after the Bryan adherents had forced two test votes, on both of which they were defeated. The Bryan men insisted on a roll call on every vote and gave notice in their speeches on the original resolution that they would not be bound by the action of the state committee, but would make a fight throughout the state for a delegation from Minnesota to the national convention instructed for the nomination of Mr. Bryan. Moreover, a meeting of Bryan adherents held at the Ryan hotel immediately after the adjournment of the state committee, formed a Bryan organization which proposes to carry the contest against Johnson into every

precinct of the state. The state committee, besides adopting the Johnson resolution, voted that the state convention to elect delegates to the national convention should be held in St. Paul on May 14. The matter of calling a convention to nominate state officers was left to a committee of five to be appointed by State Chairman Frank A. Day.

Meeting Largely Attended.

The meeting of the committee was the most largely attended in the hisnesota, word having been sent to all members that a resolution endorsing Johnson would probably be offered. Several proxies were thrown out on a technical point, though on only one proxy contest was there any indication of the Johnson-Bryan fight. The com- mons at the close of its sitting and mittee on proxies ruled that a proxy could not be transferred. Thus Mr. Manahan was prevented from taking part in the meeting.

The state committee was called to order by Chairman Day, who made a brief speech congratulating the Democrats of Minnesota on recent victories in Minnescta and closing with the statement that in spite of feuds and jealousies, all Democrats would abide by the action of the party.

The resolution endorsing Governor Johnson for the presidency follows: "Governor John A. Johnson has twice brought victory to the democracy of Minnesota. During his incumbency of the office of governor more reforms have been instituted and more remedial legislation adopted than during any equal period of time in the history of our state. He has been controlled only by the public in terests. His mentality, resistless energy and sound judgment, united with his unimpeachable integrity, make him the embodiment of the best spirit of the West, an ideal American citizen. Confidently believing that his nomination as the candidate of the to our support the electoral votes of all the states within the Mississippi valley and thus secure a national triumph, we respectfully present to the Democracy of the nation the name of the Hon. John A. Johnson as a candidate for the presidency of the United States and recommend to the Democrats of Minnesota that they cause his name to be presented to the national convention at Denver for nomination."

The Bryan men fought the adoption of the resolution, and were defeated on a motion to lay it on the table. A resolution endorsing Bryan was voted down and the Johnson resolution then was adopted.

Governor Johnson declines to discuss the action of the committee.

Kaiser William Is Suspected of Having Atempted to Meddle With British Naval Programme-Correspondence Was Secret.

London, March 7 .- An outburst of anger against Emperor William on the part of the British public, equalling that caused by the German emperor's famous telegram to President Kruger in 1896 after the defeat of the Jamieson raiders, has followed the announcement made by the Times that Emperor William had attempted to influence the British naval policy by a secret correspondence with Lord Tweedmouth, first lord of the admiralty. The Germanaphobe party, which was never stronger than now, immediately jumped to the conclusion that Emperor William was trying to meddle in the most vital matter in Great Britain's national interests by underhand methods, and the public at first shared that view, while parliament, the newspapers, and the diplomats had the greatest sensation they had enjoyed tory of the Democratic party in Min- for many a day. The matter was considered so serious that Lord Tweedmouth broke his customary reticence,

"The letter from the German emperor is purely a personal communication and there is no reference in it to the British naval estimates."

Lord Tweedmouth visited the house of commons and conferred with the afterwards. It had been announced at first that Herbert Henry Asquith, so excited and so many members of would ask questions in the lower house about the correspondence that the cabinet decided something must made a brief statement to a crowded house, elaborating, amid prefound silence, Lord Tweedmouth's explanation that the correspondence was purely

Communication Was Private.

"It is a fact," declared the chancellor, "that on Feb. 18 Lord Tweedmouth received a letter from the German emperor. It was a purely personal and private communication, conceived in an entirely friendly spirit. My noble friend's answer was equally private and informal, and neither the letter nor its answer was known or communicated to the cabinet. I may add that in view of certain suggestions which have been made that before the letter arrived the cabinet had come to its final decision with regard to the naval estimates for this year.

These explanations only stimulate curiosity and criticism, instead of appeasing them, and a strong demand is heard everywhere for the publication of both letters. Nothing else will sat isfy the British public, and probably this will be done eventually.

The only hints regarding the nature party for the presidency would bring of Emperor William's letter which have leaked from the inner circle are that it was an attempt to refute frequent assertions in leading English incident the whole sensation may collapse as quickly as it grew, but if the letter was of the nature suggested by the Times it will be equally as damaging to the government to publish or withhold it, unless Lord Tweedmouth should be repudiated and thrown over-

It would be a delicate matter to ask Emperor William's permission to publish a private letter and he may voluntarily authorize that this be done. If the relations between Great

#### PASSES ARMY PAY BILL.

Senate Increases Salaries of Officers and Men.

Washington, March 7 .- The army pay bill has been passed by the senate. The bill provides for army officers a graded increase of pay ranging from 5 per cent for lieutenant generals to 25 per cent for junior officers. It also provides that "the average pay of enlisted men of the army as now established, is increased 40 per cent." This amendment, suggested by Mr. Cuiberson of Texas, takes away the discretion of the president in fixing the pay of soldiers.

Senator Scott read a letter from a banker who stated army officers pay 3 per cent interest a month to have their salaries discounted because their incomes are so small.

An amendment was offered by Mr. Bacon and adopted, giving six months' pay to families of officers and enlisted men upon their death.

The navy pay bill, equalizing the pay of officers of the navy and marine corps with the pay of officers of the army, was ordered reported favorably to the house by the committee on naval affairs.

That committee also agreed to report favorably the bill extending to rear admirals who were retired by the passage of the navy personnel act in 1899 the benefits of that act, whereby the rate of their retired pay will be increased.

#### All Buildings Where Public Gath. erings are Held Should be so Arranged

The Collingswood holocaust has revived interest as the provisions of the laws of the various states regarding the proper safety provisions in public buildings.

The revised statutes of Minnesota, 1905, contain the following provisions, section 5179:

"Sec. 5179—Doors of public buildings to swing outward-The doors of all theatres, opera houses, public halls, or places used for public entertainments, exhibitions or meetings, which are used exclusively or in part for admission to, or egress from, the same, shall be so hung and arranged as to open outwardly, and during any entertainment, exhibition or meeting held therein, shall be kept unlocked and unfastened, and in such condition that, in case of danger or necessity, immediate escape from such building shall not be prevented or delayed. Every owner, agent, or lessee of any such building who shall use the same or allow it to be used for any of the aforesaid public purposes, without having the doors thereof hung and arranged as hereinbefore provided, shall for each violation of any provision of this section be guilty of a misdemeanor, and be punpayment of the fine and costs, shall be case is pronounced hopeless." confined in the county jail for not less than fifteen nor more than sixty days."

While the provisions of the law as set forth above, do not expressly include school houses and churches, one of our leading attorneys expresses the belief that the provisions of the law not only include buildings used for these purposes but also all buildings used for lodge halls or other purposes where people gather together.

So far as is known to THE DISPATCH there has never been a systematic and that they pay the real estate tax on the exhaustive inspection of the buildings same 26 business places, amounting to used by the public in this city for such \$5,100. FIRE DRILL

IS NEEDED

No Systematic Training of Pupils in Marching Out in Case of Fire is Given

BE GIVEN WEEKLY No Notice Should be Given to Either Pupils or Teachers of Drill

There is no fire drill in the Brainerd schools at present. So say the pupils of the various schools. There was last year some drill which was at best but partially effective but this year even this has been abandoned. When fire drills were held they were held at the end of a session that there might be no "interference with the work of the schools" as if that was of any possible moment when weighed in the balance against the safety of our children.

Fire drill at first should be on due notice and the pupils drilled daily until proficient, under ordinary circumstances in emptying the building in the shortest possible time. After that the children should be plainly told that the fire alarm would be sounded at unexpected times. The pupils would soon become so accustomed to fire drill at any and all times that in case of a genuine alarm the children would all be marched out before they became aware of the fire and so there would be no danger of panic or of their crushing one another as was the case at Colling.

It has been stated by prominent members of the board of education that there would be steps taken at once to see that an efficient fire drill was installed in the Brainerd schools. There doubtless will be, but every parent in 'the city should make it a personal matter to see that fire drill is not only started but consistently and persistently kept up. The saving of the life of one pupil would more than pay for the loss of time or expenditure of money, in a score or a hundred of years for proper fire training or fire protection.

It has been suggested by a prominent business man that it be made the duty there is too much dampness, and the of the chief of the fire department to sash must be raised to permit it to sound the alarm at the school buildings without the knowledge of either the In the hotbeds you can force petu- teachers or the principal that they be nias, pansies, agertums, etc., from drilled as well as the pupils, as an un-

of Drill

There is no fire drill in the Brainerd schools at present. So say the pupils of the various schools. There was last year some drill which was at best but partially effective but this year even this has been abandoned. When fire drills were held they were held at the end of a session that there might be no "interference with the work of the schools" as if that was of any possible moment when weighed in the balance against the safety of our children.

Fire drill at first should be on due notice and the pupils drilled daily until proficient, under ordinary circumstances in emptying the building in the shortest possible time. After that the children should be plainly told that the fire alarm would be sounded at unexpected times. The pupils would soon become so accustomed to fire drill at any and all times that in case of a genuine alarm the children would all be marched out before they became aware of the fire and so there would be no danger of panic or of their crushing one another as was the case at Colling.

It has been stated by prominent members of the board of education that there would be steps taken at once to see that an efficient fire drill was installed in the Brainerd schools. There doubtless will be, but every parent in the city should make it a personal matter to see that fire drill is not only started but consistently and persistently kept up. The saving of the life of one pupil would more than pay for the loss of time or expenditure of money, in a score or a hundred of years for proper fire training or fire protection.

It has been suggested by a prominent business man that it be made the duty there is too much dampness, and the of the chief of the fire department to sash must be raised to permit it to sound the alarm at the school buildings without the knowledge of either the In the hotbeds you can force petu- teachers or the principal that they be nias, pansies, agertums, etc., from drilled as well as the pupils, as an un-

#### Children All Escape.

Kalamazoo, Mich., March 7.-About fifty children in the Kalamazoo children's home were marched out of the building in good order after a fire that filled the rooms with smoke had started an incipient panic. The fire was extinguished without serious damage.

Pupils Get Out in Safety.

St. Johns, Mich., March 7.-While smoke came up the flues into the schoolrooms and the halls of the Northward school, the 125 pupils marched out without the vestige of a panic, despite the fact that the fire drill had not been given in some time. The fire was extinguished before serious damage was done.

ST. PAUL, MINN.
Gentlemen: I have been a sufferer from rheumatism. I was laid up in bed and gave up all hope of being cured.
Your remedy was recommended to me by Chief of Police O'Connor, who said 6088 had cured him. On taking one-fourth of the bottle I was able to get out of bed—the first time in thirty days. I have taken my second bottle and now consider myself entirely cured. I write this that others may know of this wonderful remedy. Respectfully yours.

A splendid bill will be rendered at this theatre to-night and Saturday. The headliner will be "CLASSMATES" a romance of College Days, adolescent students, roommates and players on the football team. They were the fastest of friends until a young girl appeared and by the workings of cruel fate was beloved by both. See the football game a most spirited scene showing the teams quarters and then the actual game, which is undoubtedly the finest ever photographed. The other pictures are "BOGIE MAN'S CAVE," "THROUGH FIRE FOR LOVE" in all making a very strong bill.

Fifty Funerals Held in Suburbe of Cleveland.

Cleveland, March 7 .- Collinwood came to a full realization of her woe when slowly and solemnly the processions of death began to wend their way toward the cemetery, bearing the battered and charred remains of some of the 167 children whose lives were snuffed out in Wednesday morning's catastrophe in the Lake View school. From morning until dusk there was no cessation in the funeral corteges. Those who had no dead to mourn as a personal loss stood in the streets with bared heads as the grim processions passed. There was scarcely a dry eye in Collinwood. One of the sad funerals was that of the three children of Janitor Hirter, held jointly with the services for three other little ones. Altogether there were fifty burials. Sunday will witness the last of the individual burials and on Monday the remains of all those who are unidentified will be laid to rest with one funeral. There are twenty-eight of those bundles of flesh awaiting

Testimony was given at the continued sessions of the coroner's inquest by F. P. Whitney, superintendent of the Collinwood schools, who stated his belief to be that no fire department could have done any effective work after the fire had started. Two of the teachers told of their unavailing attempts to open one of the double doors at the rear, which they said was locked. The inquest also developed the fact that, after the first crush at the door, it was beyond human possibility to aid or save those whom the tongues of flame were devouring in the charnal house. The inquest will be resumed Monday.

In a statement, Chief Wallace of the Cleveland fire department said it was his opinion that the loss of life would not have been so great had there been no partitions at the sides of the storm doors at the rear entrance. Two feet eight inches had been taken off either side of the hall tal. There were two coaches in the for the partitions. The French car performed consistently on every lap and was splendidly driven throughout. The other record to fall was that of the mile for middleweight gasoline cars, Cedrino, in a 60-horsepower Italian car, covering the distance in 35 seconds. The old record made by Louis Cheverolet in 1906, was 40% seconds. Bernin made his 100-mile record in a special match race against Cedrino's car, S. B. Stevens driving the latter.

#### FOUR NEGROES LYNCHED.

And More Mob Violence Is Feared in Georgia.

Hawkinsville, Ga., March 7 .- The report has reached here that four negroes in all have been lynched in connection with the double murder of Warren Hart and his wife. Two were shot for interfering with the mob. Other negroes are implicated and it is feared more lynchings will follow. Many of the negroes are leaving and the others are all in hiding.

#### A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as weil as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach. increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, ing. poor or wariable appetite, coated tongue, foul breath, coastipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distressed "small of back," gnawing or distressed teeing in stomach, perhaps nausea. The stomach of "risings" in throat after eating, and kindred symptoms of weak stomach and torpid lives no medicine will relieve you more promptly or cine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present

at one time and yet point to torpid liver or billousness and weak stomach. Avoid all bot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery " regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alco-holic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-w.apper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised. Don't accept a substitute of unknown

composition for this non-secret MEDICINE W KNOWN COMPOSITION.

Alleged Counterfeiter Surrenders.

Chicago, March 7.-Mrs. Annie Jensen, the seventh member of an alleged group of counterfeiters, surrendered herself to the federal authorities. Mrs. Jensen was arrested several days ago when five men and another woman were rounded up by secret service men, but was released on a promise to appear before United States Commissioner Foote Thursday, a promise which she did not keep.

#### TWO RECORDS BROKEN.

Racing Cars Make Fast Time in Florida.

Ormond, Fla., March 7.-Two records were broken on Ormond beach. M. G. Bernin, in a 60-horsepower will sing. French car, covered 100 miles in hour, 12 minutes, 56 1/5 seconds, 3 full minutes under the old record of 1 hour, 15 minutes, 561/5 seconds, established on Ormond beach in 1906 by Walter Clifford Eary, in an English

The French car performed consistently on every lap and was splendidly driven throughout. The other record to fall was that of the mile for middleweight gasoline cars, Cedrino, in a 60-horsepower Italian car, covering the distance in 35 seconds. The old record made by Louis Cheverolet in 1906, was 40% seconds. Bernin made his 100-mile record in a special match race against Cedrino's car, S. pastor. B. Stevens driving the latter.

FOUR NEGROES LYNCHED.

And More Mob Violence Is Feared in Georgia.

Hawkinsville, Ga., March 7.-The report has reached here that four negroes in all have been lynched in connection with the double murder of Warren Hart and his wife. Two were shot for interfering with the A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as cavage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs. If you have bitter or bad taste in the morn-

If you have bitter or bad taste in the morning, poor or ariable appetite, coated tongue, foul breath, coastipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distressed feeling in stomach, perhaps nausea, the root "risings" in throat after eating, and kinded symptoms of weak stomach and torpid lives no medicine will relieve you more promptly or cure you more nermanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery " regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-w.apper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE \* KNOWN COMPOSITION.

Mangled Body Found on Tracks.

St. Paul, March 7.-The body of a man was found mangled on the St. Paul railway tracks near Third and Commercial streets by Michael Lyons, a member of the switching crew. The left leg of the victim was severed at the knee, the neck was broken and the left arm nearly separated from the body. Papers found in the pockets indicate that his name is Mark Popovich, nineteen years of age, and an Austrian. He evidently was a laboring man.
